

The freedom to expand your business

UC Pro V2

UC Pro V2 gives you the freedom to concentrate on what you do best, letting technology take care of the communication.

KEY FEATURES

- Multi-device flexibility
- Get connected easily, anytime you want
- Quickly and accurately text chat with any users
- Fast, efficient work tool
- Communication solutions for various situations and purposes

In today's business world, communication needs are constantly changing. As a business owner, you are developing your workplace in different ways and want to grow as flexibly as possible. This includes communication. Why not consider a Unified Communications application which supports you throughout this process? Our UC Pro V2 application allows you to enjoy Unified Communications on your PC, tablet or mobile device the way you expect it to work. Hassle free and with no troubles. Do you want to Chat on instant messenger? You can. You want to talk on the phone? You can do that too.

UC Pro V2 offers more than the eye can see, giving you the freedom to concentrate on what you do best and letting the application take care of all other aspects. UC Pro V2 lets you integrate new technology capabilities into your existing Panasonic system thanks to a seamless compatibility with other applications.
