

KX-TPA65, WIRELESS DESK PHONE

OPTIONAL PHONE FOR THE KX-TGP600 SMART IP WIRELESS PHONE

Compatible with the KX-TGP600 smart IP wireless phone system, the KX-TPA65 wireless desk phone offers a significant advantage over 'traditional' desk phones. While it features the same range of desktop functionality as its wired competitors, the phone's DECT capabilities means no wired LAN is required when installation is being carried out, making the process more convenient and straightforward.

A colour LCD display with backlight delivers information clearly in every office environment, while an integrated headset jack means users can manage every call comfortably, even in noisy workplaces.

The KX-TPA65 is supported by the KX-TGP600. In addition to the KX-TPA60 handset already included with the KX-TGP600, the KX-TPA65 can work alongside any combination of KX-TPA60, KX-TPA65, KX-UDT121 or KX-UDT131 handsets (KX-TPA60 + up to 7 handsets).

Key Features

- 1.8" colour LCD with backlight
- 1 colour LED indicator (Blue)
- HD wideband audio (G.722)
- Headset jack
- Easy installation without wired LAN
